

Barge Services

Marine Transportation & Barge Services

JSB Investments Inc. operates a robust fleet of tugs and barges, providing specialized shipping and logistics solutions across Guyana and the wider Caribbean. We specialize in the bulk transport of essential construction and industrial materials, ensuring reliable delivery for large-scale infrastructure projects.

Cargo & Products Transported:

- Construction Aggregates: High-capacity transport of Sand, Loam, Limestone, and Bauxite.
- Industrial Materials: Movement of 3/4", 1/2", and 3/8" Stone, Crusher Run, and Gabions/Boulders.
- Heavy Assets: Secure transport for Heavy-Duty Machinery, Vehicles, and Building Materials.
- Containerized Cargo: Efficient barge solutions for shipping containers.

Service Highlights:

- Construction Aggregates: High-capacity transport of Sand, Loam, Limestone, and Bauxite.
- Industrial Materials: Movement of 3/4", 1/2", and 3/8" Stone, Crusher Run, and Gabions/Boulders.
- Heavy Assets: Secure transport for Heavy-Duty Machinery, Vehicles, and Building Materials.
- Containerized Cargo: Efficient barge solutions for shipping containers.

Wharf Services

Wharf & Port Terminal Services

We operate three strategically located port facilities on the banks of Guyana's major rivers, serving as vital gateways for the construction and energy sectors. Our primary facilities at Soesdyke, La Retraite, and Sarah Johana are engineered to handle high-volume cargo throughput and vessel support.

Port Facilities & Infrastructure:

- Soesdyke Terminal (East Bank Demerara): Strategically located at the junction of the Linden/Soesdyke Highway, serving as a primary logistics hub for inland resources.
- La Retraite Wharf (West Bank Demerara): A specialized facility used as a major resale outlet for sand, stone, and loam to support massive government and private infrastructural developments.
- Sarah Johana Facility: Prime riverfront real estate suited for large-scale laydown areas and project staging.

Service Highlights:

- Side Wharfage Facilities: Secure docking and berthing for a variety of vessel classes.
- Cargo Management: Large-scale stockpile areas with capacities up to 50,000 tons, equipped with conveyors, loaders, and excavators for rapid dispatch.
- Vessel Support (Husbandry): Including Fresh Water Supply, Fuel Bunkering, and Ship Chandling.
- Technical Services: Minor Ship/Deck Repairs and Solid Waste Management (MARPOL compliance).
- Strategic Location: Our facilities are located just miles from our sand quarries, creating a seamless, cost-effective link between mining and maritime export.
